Grid System

columns + row grid

The screenshot illustrates a website layout utilizing a grid system. The top navigation bar includes links for PartnerUp, Platform, Pricing, Resources, Creators, Log In, and Get started. A large central image features a woman with curly hair wearing a colorful striped sweater, smiling while looking at her phone. Text overlays on the left and right sides read "Discover and work with Influencers in seconds." A callout arrow points from the text "Discover and work with Influencers in seconds." to the central image, indicating the use of a grid system. Another callout arrow points from the text "columns only" to the right side of the image, where a smaller inset shows a different section of the website.

The screenshot shows the Figma Product interactions panel. At the top, it says "Product interactions" and has a "Beta" button. The main area displays a table with one row:

All variables	1	Name	Value	+
# Amount	1			

At the bottom of the panel, there is a "Create variable" button.
